

IMPORTANT ANNOUNCEMENT

FOR ALL EASTERN CONNECTION CUSTOMERS

Since 1983 Eastern Connection has served customers across the Eastern U.S. with industry leading Regional Parcel Service. As you may already be aware, effective September 9, 2015, Eastern Connection was acquired by Dicom Transportation Group, based in Montreal, Canada. Since 1968 Dicom has provided Express Parcel, Freight and Logistics Services throughout Canada.

Now, Eastern Connection is part of the **Dicom Transportation Group** family and will soon begin the process of transitioning our Eastern Brand name to Dicom.

Let me assure you that nothing will change operationally.

You will still be able to rely on the same great service that you have depended on from Eastern over the years. Soon, you'll also be able to engage the additional services available from Dicom. Those services include Regional Parcel shipping throughout Canada, Freight services and custom Logistics solutions for your business across North America.

Services to meet your unique needs.

Whether the solution to your logistics challenge requires Same Day or Next Day Regional Parcel Service, Pool Distribution, Final Mile Service, TL or LTL Freight or a custom developed logistics solution to meet the unique needs of your business, Dicom Transportation Group has the expertise and resources to meet your requirements.

We welcome your questions.

If you have any questions, or would like to know more about the expanded services that will now be available to all Eastern Connection customers, please:

- Contact your Eastern Connection Service Representative at: 1 800 877 4745
- Visit the Eastern Connection website at easternconnection.com
- Visit the Dicom Transportation Group website at dicom.com.

I'm confident that you will agree that, as a part of **Dicom Transportation Group**, Eastern Connection can now meet even more of your transportation and logistics needs, today and for years ahead.

Thank you,

Jim A. Berluti, Vice President of Sales
Eastern Connection, now part of Dicom Transportation Group
